

Below are the project requests I submitted for consideration as part of the Water Resource Development Act (WRDA). If included, these projects would authorize federal funding; their inclusion in WRDA does not mean federal funds will necessarily be appropriated.

Requesting Organization: City of Cincinnati Park Board Project Description: Major new park expanding Cincinnati's public riverfront to nearly three miles of trails, recreation, and land management features. Amount requested: \$80,000,000

Requesting Organization: Metropolitan Sewer District of Greater Cincinnati Project Description: 7,600 feet of 30-foot-diameter storage tunnel to remove approximately 2 billion gallons per year of combined sewer overflow discharges into the Mill Creek.

Amount requested: \$5,000,000
